Description

Logging In

Blackboard

HuskyCT is the University of Connecticut version of Blackboard, our learning management system (LMS). You log in to HuskyCT by visiting huskyct.uconn.edu and using your NetID credentials.

Two screenshots of the HuskyCT login interface. The left screenshot shows the 'HuskyCT' login page with a 'Login' button and a 'Guest Login' button. The right screenshot shows the 'NetID Single Sign On' page with input fields for 'NetID' and 'Password', a 'Login' button, and a checkbox for 'Warn me before logging me into other sites'. Below the checkbox is a link for 'Need Help?'.

Getting HuskyCT Technical Support

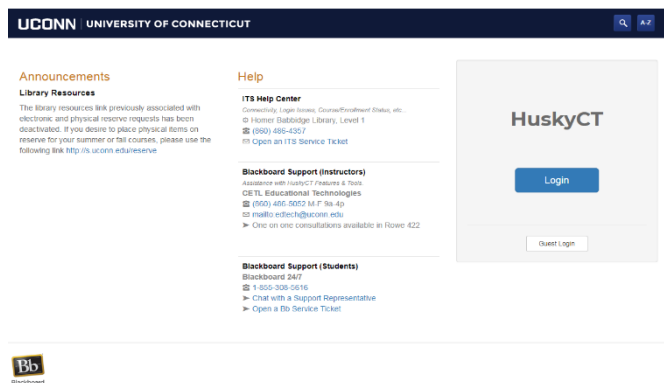

HuskyCT technical support is available to students 24 hours a day, 7 days a week. Technical support can be reached by calling 1-855-308-5616.

Online, chat-based support is also available.

A variety of self-service help guides can also be accessed on the Student Help tab of HuskyCT.

HuskyCT technical support contact information is also available prior to log-in, on the main HuskyCT log-in screen.

NOTE: For course administration/content support, contact the course coordinator or course director.

MDelta Course Layout

Each MDelta course follows a common course layout in HuskyCT, making it easier to find course information and content.

You will find the names of key course personnel, including the course directors and course faculty on the home page for each course. You will also find the name of the course coordinator and their contact information.

The menu bar on the left side of the course is your primary navigation tool and gives you access to additional course information and resources.

Finding Course Information in HuskyCT

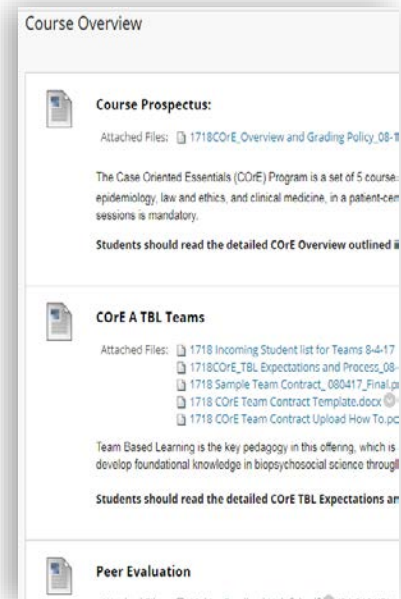

You will find logistical and administrative information about MDelta courses in the Course Overview section of the course in Husky CT.

Where applicable, this section of the course includes such information as:

- the course prospectus
- team assignments for TBL
- grading information
- course-level learning objectives

In addition, you will also find the resource list of textbooks that you are expected to have access to.

Course Attendance in HuskyCT

While course attendance policies vary, where attendance is required to be reported, the reporting is done through HuskyCT. There is a link to the attendance section on the menu bar.

Course Schedule

Information regarding the course schedule, including cases and general topics to be covered in each session, may be found on the Course Schedule section of the course page. From this section, you are able to view, download or print the schedule for the course.

Course Schedule

Print the Schedule

Module	Unit	Session	Day	Date	Unit Topic

Locating Assessments in HuskyCT

When course sessions have Readiness Assurance Tests (RATs) for TBL sessions, you will find access to the assessments at the Assessments link from the course menu bar. This will bring you to a folder with entree to available assessments for that session.

Accessing ReALMs in HuskyCT

Remote Active Learning Modules (ReALMs) are the building block of the MDelta flipped classroom and team-based instructional model. ReALMs provide the content background necessary to participate in the in-class application exercises. ReALMs include content in the form of videos, presentations, book chapters, journal articles and more. Links to all ReALMs are found in HuskyCT at the Curricular Materials link from the menu bar. ReALMs are listed by module and then by session (where applicable). The syllabus for each module is first, followed by module or session resources.

Each module or session may have required and/or additional ReALMs. In the same location, you will find practice questions (if applicable) for the module or session
