On-Demand: The 36th Annual Ella T Grasso Memorial Conference
Cancer in the Young Woman: Improving Care and Outcomes in Pregnancy and Fertility

Provided by University of Connecticut School of Medicine Office of Community and Continuing Medical Education and the division of the Ray Neag Comprehensive Cancer Center and Obstetrics and Gynecology.

Post conference On-Demand Access: November 17, 2021 – December 31, 2021
Registered participant’s access to viewing Recording: (access the link you received in your registration email)
Link to access post viewing quiz (required): https://uconn.co1.qualtrics.com/jfe/form/SV_5uLvvpGmoc7Tuia
Link to access CME evaluation (required): https://uconn.co1.qualtrics.com/jfe/form/SV_dbbzXYh82xZVOES

Target Audience: ONLY REGISTERED CONFERENCE PARTICIPANTS who are OB/GYN MDs, Primary Care Physicians, Medical Oncologists, Surgeons, and Allied Health Professionals

This is an opportunity for only those registered participants who did not attend the live virtual conference on November 17, 2021 the option to view the recorded conference on-demand to earn CME credit. If you attended the live virtual conference and already claimed your CME credits, you are not eligible for the on-demand conference CME credit option. The on-demand option is only for those that registered and did not attend live.

Directions: To earn CME credits via the on-demand option, please use the links already provided to you from your event registration to view the on-demand recording of the live event that took place on November 17, 2021. Once you view the on-demand recording in its entirety, please complete the assigned CME evaluation and the post-viewing quiz (quiz link provided above). You must complete BOTH the CME evaluation and Quiz in order to obtain the CME credits when using the on-demand option. Questions regarding this process, please contact Katherine Zelko, the activity administrator at kzelko@uchc.edu.

On-Demand Conference Topics

Topic: Chemotherapy in pregnancy
Speaker: Molly Brewer, DVM, MD, MS
Learning Objectives: Participants will (be able to):
1. Identify cancer types that require immediate referral and treatment during pregnancy.
2. Identify those cancers for which treatment can be delayed until the postpartum period.
3. Identify those cancers for which treatment can be delayed until the postpartum period.

Speaker Disclosure Statement: Dr. Brewer does not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation. Dr. Brewer will not be discussing the off-labeled use of any product.

Topic: Fertility Preservation for Women with Cancer
Speaker: Daniel Grow, MD, MHCM
Learning Objectives: Participants will (be able to):
1. Identify female cancer patients who may be candidates for fertility preservation.
2. Review fertility options with patients.
3. Identify local resources to such that they can make timely referrals such that cancer care is not compromised but the hope of family is preserved.

Speaker Disclosure Statement: Dr. Grow does not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation. Dr. Grow will be discussing an off-labeled use of Leuprolide acetate and other GMRH-agonists.

Topic: Updates on the Management of Gestational Trophoblastic Disease
Speaker: Neil Horowitz, MD
Learning Objectives: Participants will (be able to):
1. Recognize molar pregnancies, their etiology, natural history, and management with particular focus on hCG surveillance.
2. Diagnose gestational trophoblastic neoplasia, stage this disease, choose appropriate first and second line treatments, and when to refer to centers of excellence
3. Counsel women regarding future fertility and pregnancy outcomes after a diagnosis of molar pregnancy or GTN

Speaker Disclosure Statement: Dr. Neil Horowitz does not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation. Dr. Neil Horowitz will not be discussing the off-labeled use of any product.

Topic: Management of Abnormal Pap Smear Screening Results and Cervical Cancer in Young and Pregnant Women
Speaker: Jennifer Jorgensen, MD, MPH
Learning Objectives: Participants will (be able to):
1. State the age appropriate cervical cancer screening test and interval for women of different ages.
2. Describe management options for LSIL and HSIL in each trimester of pregnancy.
3. Provide initial counseling to the pregnant patient with newly diagnosed cervical cancer.

Speaker Disclosure Statement: Dr. Jorgensen does not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation. Dr. Jorgensen will not be discussing the off-labeled use of any product.

Topic: Pink Problems: Gynecologic Issues in Breast Cancer Survivors
Speaker: Erin Keyser, MD
Learning Objectives: Participants will (be able to):
1. Counsel their breast cancer patients on pros and cons of BSO in management of breast cancer.
2. Identify side effects of breast cancer treatments and empower gynecologists to ask breast cancer survivors about symptoms and side effects they are experiencing to include sexual dysfunction.

3. Explore the various treatment options for sexual dysfunction and vasomotor symptoms in breast cancer survivors including risks and benefits of each treatment and medications that can be prescribed.

**Speaker Disclosure Statement:** Dr. Keyser does not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation. Dr. Keyser will be discussing an off-labeled use of MonaLisa.

**Topic:** Cancer & Pregnancy: Management of Ovarian Masses in Pregnant Women including Ovarian Cancer
**Speaker:** Carolyn Runowicz, MD

**Learning Objectives:** Participants will (be able to):
1. Explain the increased prevalence of adnexal masses in pregnancy.
2. Distinguish the pregnancy associated changes in CA12S and other tumor markers.
3. Review conservative versus surgical therapeutic options.

**Speaker Disclosure Statement:** Dr. Runowicz does not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation. Dr. Runowicz will not be discussing the off-labeled use of any product.

**Topic:** Obstetric Management of Pregnancy Complicated by Cancer
**Speaker:** Andrea Shields, MD, MS

**Learning Objectives:** Participants will (be able to):
1. Describe the most common reproductive tract malignancies diagnosed during pregnancy and review the potential adverse obstetric outcomes associated with these.
2. Examine shared decision making as it relates to crucial decisions on obstetric care in pregnancies complicated by malignancies.
3. Describe preconception counseling for patients with history of reproductive tract malignancies.

**Speaker Disclosure Statement:** Dr. Shields does not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation. Dr. Shields will not be discussing the off-labeled use of any product.

**Topic:** Premenopausal Endometrial Cancer: Considerations for Fertility and Ovarian Preservation
**Speaker:** Bradford Whitcomb, MD

**Learning Objectives:** Participants will (be able to):
1. Provide counseling to premenopausal women regarding ovarian preservation when diagnosed with endometrial cancer.
2. Provide counseling and referral to women who desire fertility sparing treatment of early stage endometrial cancer.
3. Improve performance on oral and written examinations for career development with respect to fertility and ovarian preservation in women with endometrial cancer.

**Speaker Disclosure Statement:** Dr. Whitcomb does not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation. Dr. Whitcomb will be discussing an off-labeled use of aromatase inhibitors, levonorgestrel IUD, metformin, gnrh-agonists, but will not be discussing the off-labeled use of any product.

**Accreditation:** The University Of Connecticut School Of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The University Of Connecticut School Of Medicine designates this live activity for a maximum of 6 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Conflict of Interest Policy:** All faculty members participating in CME activities provided by the University Of Connecticut School Of Medicine are required to disclose to the program audience any actual or apparent conflict of interest related to the content of their presentations. Program planners have an obligation to resolve any actual conflicts of interest and share with the audience any safeguards put in place to prevent commercial bias from influencing the content.

**Activity Director Disclosure Statement:**
Dr. Jennifer Jorgensen, as the activity director and Dr. Bradford Whitcomb, as the co-activity director, do not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation.

**Planning Committee Disclosure Statement:**
Drs. Molly Brewer, Jennifer Jorgensen, Andrea Shields and Bradford Whitcomb and Wendy Larose and Katherine Zelko as member(s) of the planning committee, do not have a financial interest/arrangement or affiliation with any organizations that could be perceived as a real or apparent conflict of interest in the context of the subject of this presentation.

**Commercial Support Statement:** This CME activity has no commercial support associated with it.

**Evaluations:** Participants are required to complete and pass the on-demand quiz (70% pass) and the electronic evaluation in order to obtain CME Credits. An email with instructions will be sent to participants regarding instructions on the on-demand option for receiving credit. Please contact the activity administrator, Katherine Zelko for questions regarding this activity, kzelko@uchc.edu.
