(sample nomination letter template for appointment/promotion/tenure to senior rank)

The Chairperson’s letter must summarize the evidence supporting the nomination for senior rank. Detailed, evidence-based information is required for each criterion. The letter should include specific information about service development, service size, growth, the number of individuals served and the education or research components of the service.

Tenure in the professional ranks will be granted only to persons of outstanding achievement. If the nominee is being considered for Tenure the criteria are the same as those for promotion/appointment. In addition, provide evidence that the nominee will continue with a high level of performance for an extended period of time (e.g. grant funding and the potential for grant renewals; evidence that the nominee is committed to the academic mission of the SOM; membership in multiple study sections; holding elected positions in regional or national societies; a record of independent investigations consistent with growth in future years).
