

PERSONAL STATEMENT (see TEMPLATE below)

The personal statement should be organized around each criterion in the nominee's designated professional category and leg (see [Companion Document](#) for requirements of each professional category). Within the personal statement, the **nominee must** provide a summary of the nominee's academic activities and professional development, along with objective evidence supporting the personal statement narrative. One effective approach is to use appendices for providing objective evidence, which is cited in the personal statement. Keep in mind the SAPC is an interdisciplinary group. Write the statement for a mixed audience of clinicians and basic scientists.
