

A COMMUNITY BUILDING CONVERSATION FOR URIM CANDIDATES

The UConn GME Diversity Oversight Committee invites you to attend its Community Building conversation on Thursday, February 4th, 6:30pm EST. We have organized this informative event for all URiM candidates interviewed by our awesome residency programs in order to foster a sense of community and discuss what we currently do and future plans to further diversity and inclusion in our learning environment. The evening will include voices from leadership in our Medical school, affiliated programs, and current faculty and residents as well as community partners. This is the start to great relationships with some of you and we'd love to see you there.
