

LEARNING CENTER RESOURCES FOR RESIDENTS and FELLOWS

The Learning Center at UConn School of Medicine and UCONN Health provides comprehensive academic counseling through cognitive skills development and learning support to all medical students, dental students, resident learners and fellows.

The Learning Center is staffed and overseen by two Learning Specialists, Dr. Carrie Walker (MPAS, EdD, PA-C) and Dr. Rhonda Mudry (PhD). The Learning Specialists are available to help residents and fellows develop effective studying and test-taking strategies, time management skills, and strategies for efficient clinical learning.

The Learning Specialists offers group workshops and individual support for exploring content, processes, and thinking skills to maximize success. Individuals may reach out to the Learning Specialists for a one-on-one directly via email or through the Learning Center's online booking system. Program directors may reach out to the Learning Specialist for group workshops.

All meetings are confidential and only the individual seeking a meeting can self-refer.

Current Learning Center Offerings:

- Analysis of past ITE results and developing plans for upcoming ITEs
- Individualized coaching and study plans for USMLE Step 3
- Recommendations and plans for certification exams
- Instruction on test-taking strategies
- Tools and techniques for effective time management
- Guidance pertaining to clinical efficiency or communication
- Accountability coaching
