

MISSION STATEMENT

The mission of the University of Connecticut School of Medicine's Office of Graduate Medical Education (GME) is to provide effective oversight and management of high-quality, comprehensive, and culturally relevant educational programs to improve the overall health of the citizens of Connecticut.

GME is committed to providing inclusive clinical learning environments complete with the resources needed to graduate highly qualified physicians able to care for citizens first and foremost in Connecticut and beyond. We do this by promoting academically vigorous programs that foster physicians' professional development and prepare skilled, ethical, and compassionate independent physicians who can meet the challenges of a changing healthcare environment.

GME promotes research and scholarly activity in our residents, fellows, and faculty. We attend to resident well-being and an inclusive environment where all are treated with mutual respect.

Lastly, we collaborate with our affiliated training sites, engaging residents and fellows as integral and transformative members of the healthcare system with the goal of providing safe, equitable, and effective patient-centered care.
