A National Provider Identifier or NPI is a unique 10-digit identification number issued to health care providers in the United States by the Centers for Medicare and Medicaid Services (CMS). All residents/fellows are required to apply for and receive a NPI number at the time of training.

You must have an NPI before starting training at UConn with the appropriate taxonomy and program address. Failure to comply with this requirement could result in you not being able to begin training, employment and benefits. The University of Connecticut School of Medicine will not be responsible for any loss of privileges or fines as the result of your failure to comply with the above mandate.

Do not put your home address/personal phone number on the NPI registration form.

This information is provided online to the public.

You should use your program office address/phone or the GME office address/phone for all addresses/phones requested on the application.

Make sure to have this information available before you start the application.
