

IMMUNOLOGY GRADUATE PROGRAM (IGP)

Why Immunology?

- Immunology is at the forefront of 21st century's approach to treat and control diseases including cancer.
- The mission of the Immunology Graduate Program is to train the next generation of basic and applied immunologist who will make significant contributions to 21st century medicine.
- The IGP has trained >120 students, who have secured postdoctoral fellowships in world-renowned laboratories, faculty positions at academic institutions and scientist positions in biomedical industry.

FACULTY AND RESEARCH INTERESTS

IGP has a vibrant research portfolio focusing on a diverse range of interrelated topics within the fields of infectious disease, inflammation, autoimmunity and cancer biology.

IGP Retreat

Poster session at IGP Retreat

Human Monocytes

Proteomic and mass spectrometric technologies to identify new immune molecules

Confocal microscopic analysis of immune cells

Director: Adam Adler, PhD

Associate Director: Sivapriya Kailasan Vanaja, DVM, PhD
