Tips for completing the I-983, I-765 and other documents:

Form I-983
The purpose of the Form I-983, a new requirement for 24-month extension, is to ensure that students continue a rigorous training program that builds on the skills obtained as a full time student. The student and their supervisor must agree on the components of the plan as follows: 1. the role of the student in the workplace 2. the goals and objectives of the proposed training 3. how the employer will provide oversight of the plan, and 4. what set of measures and assessments will be used. Both student and supervisor must sign this form.

Students with a pending 17-month STEM extension filed before May 10, 2016 can expect to receive a request from USCIS which will require this form before their STEM OPT application will be approved. You will also be asked for a new I-20 signed by your International Office.

- Start with the SEVP instructions for students and employers to complete the I-983 as a helpful guide as you complete the form.
- Use the name and contact information of your UCH designated school official as your Designated School Official (DSO).
- UCH SEVIS School Code is found on Page 1 of your I-20 under School Information, and begins with the letters BOS214F________
- Your CIP code is assigned to your major and can be found on your I-20 or on a degree verification. The number format will be 00.0000 (26.0102 - Biomedical science)
- Contact your employer to obtain the company’s EIN (tax ID number), NAISC code, and E-Verify information.

A full overview of the new application requirements including instructions for your employer can be found on The Study in the States hub.
