

**Center for Indoor Environments and Health
Hurricanes and Mold Workshop
July 23, 2015 1:00PM-4:30PM**

3:50 PM Small group discussion- Paul Bureau

PPE/personal protective equipment, and mold and moisture cleanup

Paul Bureau will demonstrate respirator fit check and there will be an opportunity to practice. A member of the UCONN team will facilitate discussion of the **After the Storm- Mold and Moisture Cleanup; A Guide for your Safety** guidance. Each person will have presentation notes and NIEHS/ National Institute of Environmental Health Sciences guidances.

PPE: Donning respirators and doing self-check

What are impressions, features, and differences among respirators?

After the Storm- Mold and Moisture Cleanup

Assessing your health risk for involvement in mold cleanup and assessing your health risk for wearing a respirator

Choosing PPE

Utilizing appropriate work practices
