

A Guide for Residents

Mold Growth:

JUST ADD WATER

Mold can grow in almost any temperature!

Different types of mold grow in different temperatures

Food sources can be anything organic!

(ex. wallboard, fabrics, dust trapped in other materials (carpet))

ALL YOU NEED IS WATER! FOR SOME MOLD, THE TINY DROPLETS THAT FORM ON COLD WINDOWS IS ENOUGH!

"Some mold is present in every home and does not necessarily pose a health hazard when not growing on water-damaged material"

-Connecticut Department of Public Health
