

# Empowering Multiple Sclerosis Care

Harnessing the Synergy of Therapies and Collaborative Support

September 14, 2024 | 8:30 a.m. to 12:30 p.m.

Join experts from the Multiple Sclerosis Center for a FREE day of education. Attendees will learn about ongoing and future MS therapeutic strategies and gain access to our unique services and world-class research program. Participants will also have the opportunity to meet with our MS providers and representatives from the MS Society.

Our symposium will:

- Review current therapeutic approaches to MS
- Highlight future treatments and care strategies for MS
- Describe ongoing interventions for symptoms secondary to MS, including cognitive and urinary issues
- Provide support for patients with MS and their caregivers
- Explain advances in the field and what we can expect on the horizon
- Feature a question-and-answer session with our MS experts

**Who Should Attend:** People living with MS and their families.

**Format:** In-person and virtual. Registration required.

**Details:** Coffee and light breakfast provided. In addition, lunch will be served for patients and families.

**Cost:** Free, limited to 100 participants.

**REGISTER TODAY**

Parking is available nearby. Please inform us if you require ride services. If you have any questions or need additional information, email [mssupport@uchc.edu](mailto:mssupport@uchc.edu).
