

UConn Physician-Scientist Career Development Virtual Colloquium

**“Multi-variable equations, dominos (not the pizza), and boats:  
some thoughts about science and academic medicine”**

## **Alvin C. Powers, M.D.**

**Joe C. Davis Chair in Biomedical Science, Medicine, Molecular  
Physiology and Biophysics**

**Professor, Vanderbilt Diabetes Center**

**Director, Division of Diabetes and Endocrinology**

Alvin C. Powers, M.D., is the Director of the Vanderbilt Diabetes Research and Training Center, a NIH-funded center that facilitates the diabetes-related research of more than 120 Vanderbilt scientists. He is a physician-scientist whose research on type 1 and type 2 diabetes focuses on pancreatic islet biology, development, and function. His research is or has been supported by the NIH, the VA Research Service, the JDRF, and the American Diabetes Association (ADA). Dr.

Powers, a physician at Vanderbilt University Medical Center and the VA Tennessee Valley Healthcare System, is listed by Castle Connolly Medical Ltd as one of “America’s Top Doctors.” Dr. Powers received his undergraduate degree from the University of Virginia and his medical degree from the University of Tennessee Center for the Health Sciences. After training in internal medicine at Duke University Medical Center, Dr. Powers trained in Endocrinology and Diabetes at the Joslin Diabetes Center, the Massachusetts General Hospital, and Harvard Medical School.

**Date: Monday, March 14, 2022**

**Time: 5:30pm**

**Location: [Webex link](#)**

Presented by the Office of Physician-Scientist Career Development
