OFFICE OF PHYSICIAN-SCIENTIST CAREER DEVELOPMENT

Annual Physician-Scientist Career Development Colloquium

2026 Keynote Address

DATE	TIME	LOCATION
Monday, Nov 16, 2026	5:00 – 6:00 PM	Room EG013

Mukesh K. Jain, MD

Dean of Medicine and Biological Sciences, Brown University

"A Career without a Map: Lessons from Academic Life"

ABOUT THE SPEAKER

Mukesh K. Jain, MD is Senior Vice President for Health Affairs, Senior Associate Provost for Life Sciences, the eighth Dean of Medicine and Biological Sciences, and the Frank L. Day Professor of Biology at Brown University.

A physician-scientist, Dean Jain is widely recognized for pioneering studies establishing Kruppel-like factors (KLFs) as coordinate regulators of the blood-vascular and metabolic systems, establishing them as key pharmacologic targets for therapeutic gain. His work has been continuously supported by federal and non-federal organizations for over two decades.

Dean Jain is a gifted mentor to over a hundred trainees and a recipient of mentorship awards from Harvard Medical School and Case Western Reserve University. His clinical and academic contributions have been recognized through election to the National Academy of Medicine, the American Society for Clinical Investigation (past president), the Association of American Physicians, and the Association of University Cardiologists.

POST-TALK DISCUSSION & LIGHT REFRESHMENTS, ROOM EG013
