A. EFFECTIVE DATE: July 9, 2018

B. PURPOSE: To protect the confidentiality, integrity and availability of UConn Health electronic resources from computer viruses, malicious code and known vulnerabilities.

C. POLICY:

1. All computer equipment connected to the UConn Health network must have UConn Health-approved virus protection software installed and configured so that the virus definitions are current, and routinely and automatically updated.

2. All electronic devices connected to the UConn Health network shall be up to date with the manufacturers’ operating system and application security software updates.

3. Any electronic resource suspected of being infected with malicious software or displaying behaviors that put UConn Health patients, data or systems at risk may be removed from the UConn Health network without prior notice, at the sole discretion of the Information Security Office.

D. SCOPE: This policy applies to all UConn Health workforce, Business Associates, Non-Workforce and all other individuals granted access to UConn Health electronic resources. This policy also applies to all electronic devices connected to the UConn Health network.

E. PROCEDURES, GUIDELINES AND PROTOCOLS: Users suspecting any malicious software infection or system compromise shall call the UConn Health Service Desk at extension 4400.

G. RELATED POLICIES: None

H. SEARCH WORDS: Virus, Malicious, Security, Patch, Update

I. ENFORCEMENT: Violations of this policy may result in appropriate disciplinary measures in accordance with University By-Laws, General Rules of Conduct for All University Employees, applicable collective bargaining agreements, the University of Connecticut Student Code, other applicable University Policies, or as outlined in the procedures document related to this policy.
