**PURPOSE:** The EPII is a tool designed to assess tangible impacts of epidemics and pandemics across personal and social life domains. This is a supplemental module of the EPII to include items for assessing impact during prenatal, perinatal, and infancy periods. The intent is to include this supplement along with the main EPII module.

**DEVELOPMENT:** Candidate items were constructed by a team of clinical and developmental psychologists, pediatricians, sociologists, and psychiatrists with expertise in assessment of stress, trauma, resilience, and coping. Feedback from professionals across multiple disciplines (e.g., social work, pediatrics, medicine, anthropology) was incorporated in selecting and refining final items for the measure, which was accomplished via expert consensus.

**PSYCHOMETRICS:** Because the EPII is newly developed, there are no psychometric properties yet available. Use of the EPII in research studies will help to establish psychometric properties and will likely result in refinement of the tool.

**SCORING.** Optimal scoring procedures are not yet determined and will be informed by future research.

**PERMISSIONS.** Researchers are welcome and encouraged to use the EPII in their research studies. Researchers may disseminate the survey using a paper format or may convert items to an online survey format so long as the integrity of the instructions and items is maintained. Users shall not modify items without permission from the developers. Please inform us of your intention to use the instrument by sending an Email to Dr. Damion Grasso at dgrasso@uchc.edu with the following information: (1) Principal Investigator(s), (2) Purpose of research study, (3) Population(s) studied, and (4) Study location(s).

**INTERVIEWER GUIDELINES:** For interviews conducted verbally or in person, the interviewer should explain the following related to the use of N/A at the outset: “For most women answering these questions, the answer is usually YES or NO. But, sometimes, a statement just might not apply to you, like having trouble getting to a lab to have tests done wouldn’t make sense if you didn’t have any tests planned anyway. For questions that just don’t apply you can say “not applicable” or NA.”

**INSTRUCTIONS**
We would like to learn how the coronavirus disease pandemic (COVID-19) affected your experiences during your recent pregnancy. For each statement below, please answer whether the pandemic specifically impacted you in the way described. Some of the statements are about changes to your healthcare: If a change happened, whether it was because of your choice or your medical team’s choice, you should check ‘YES’. If the statement is not true for you, check ‘NO.’ Checking “N/A” means that the item is not applicable or it did not apply to any of your experiences.

We would like to know how the COVID-19 pandemic affected you during your pregnancy. Please check ”yes” if the statement is true.

**DUE TO COVID-19...**

<table>
<thead>
<tr>
<th>Statement</th>
<th>YES</th>
<th>NO</th>
<th>N/A</th>

</tbody>
</table>
14. My older child(ren) getting COVID-19 at childcare/school. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
15. My health if I got COVID-19. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
16. My baby’s health if I got COVID-19. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
17. Not being able to breastfeed how I wanted due to COVID-19. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
18. Being separated from my baby because of COVID-19. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
19. Who would care for my baby if I got COVID-19. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
20. Being confused about what would be best for my baby if I got COVID-19. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
21. How my baby and I would be treated when I delivered if I got COVID-19. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
22. How family and friends would treat me and my baby if one of us got COVID-19. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  

When I was pregnant, I felt upset thinking about...  
23. Having trouble getting baby supplies, like diapers, wipes, clothes or formula. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
24. My ability to bond with my baby. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
25. The ability of other important people to bond with my baby. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
26. Having to wear a mask around my baby. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
27. Having trouble paying for medical care for me or my baby. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
28. Not having enough help taking care of my baby due to COVID-19. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
29. Wondering if my healthcare team would listen to my concerns when I delivered my baby. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  
30. Wondering if I would be treated with respect and compassion at the place where I planned to deliver my baby. & VERY UPSET & SOMEWHAT UPSET & NOT UPSET & N/A  

By answering the next two questions, you will help us to understand how this time was for you overall.  
31. Overall, how upset were you by how COVID-19 affected your experiences during your pregnancy?  
   EXTREMELY UPSET  VERY UPSET  SOMEWHAT UPSET  A LITTLE UPSET  NOT AT ALL UPSET  
32. Thinking about the things that upset you, if any, which of them upset you the most?  
_________________________________________________________________________________
We are also interested in POSITIVE CHANGES due to the pandemic. Please check "yes" if the statement is true. Due to COVID-19, when I was pregnant...
