

2018 Connecticut Community Readiness Survey Results: CONNECTICUT

Developed by the Department of Mental Health and Addiction Services
Center for Prevention Evaluation and Statistics at UConn Health
October 2018

**CONNECTICUT
Clearinghouse**
a program of the Connecticut Center
for Prevention, Wellness and Recovery

Connecticut Community Readiness Survey (CRS) Objectives

- Assess perceived substance use problems at the local level;
- Measure community readiness for substance abuse prevention:
 - Community attitudes about alcohol and drug use, mental health promotion, and suicide and problem gambling prevention;
 - Community support for prevention;
 - Availability and perceived effectiveness of prevention strategies;
 - Perceived barriers to substance abuse prevention;
 - Use of data for substance abuse prevention;
 - Rating of community readiness;
- Develop a tool and methodology that DMHAS can use for ongoing needs assessment;
- Inform substance abuse prevention planning and mental health promotion at state and regional levels;
- Identify needs for training and technical assistance;
- Provide data to evaluate the impact of SPF-based initiatives.

Connecticut Community Readiness Survey (CRS) Approach

- Instrument developed through a consensus process involving DMHAS, its Resource Links, State Advisory Committee and UConn Health;
- Administered biannually statewide since 2006;
- Web-based survey implementation supplemented by paper surveys ;
- CT Clearinghouse coordinates e-mail distribution of the survey;
- Regional Behavioral Health Action Organizations (formerly Regional Action Councils) identify 5-10 key informants per town/city to survey;
- RBHAOs conduct active outreach and follow up with key informants to encourage participation and maximize responses;
- Data analysis by the DMHAS Center for Prevention Evaluation and Statistics at UConn Health;
- State and regional results are disseminated to RBHAOs to support planning;
- This approach resulted in **975** responses to the 2018 CRS survey statewide, with representation in **163** of 169 communities.

DMHAS Regional Behavioral Health Action Organizations (RBHAOs)

Key Informant Demographic Characteristics: Connecticut CRS, 2018

Key Informant Stakeholder Affiliation: Connecticut CRS, 2018

Problem Substances of Greatest Concern According to Key Informants By Age Group: Connecticut CRS, 2018

Community Attitudes Toward Substance Abuse Prevention [Q10]: Connecticut CRS, 2018

Key Informant believes that most community residents

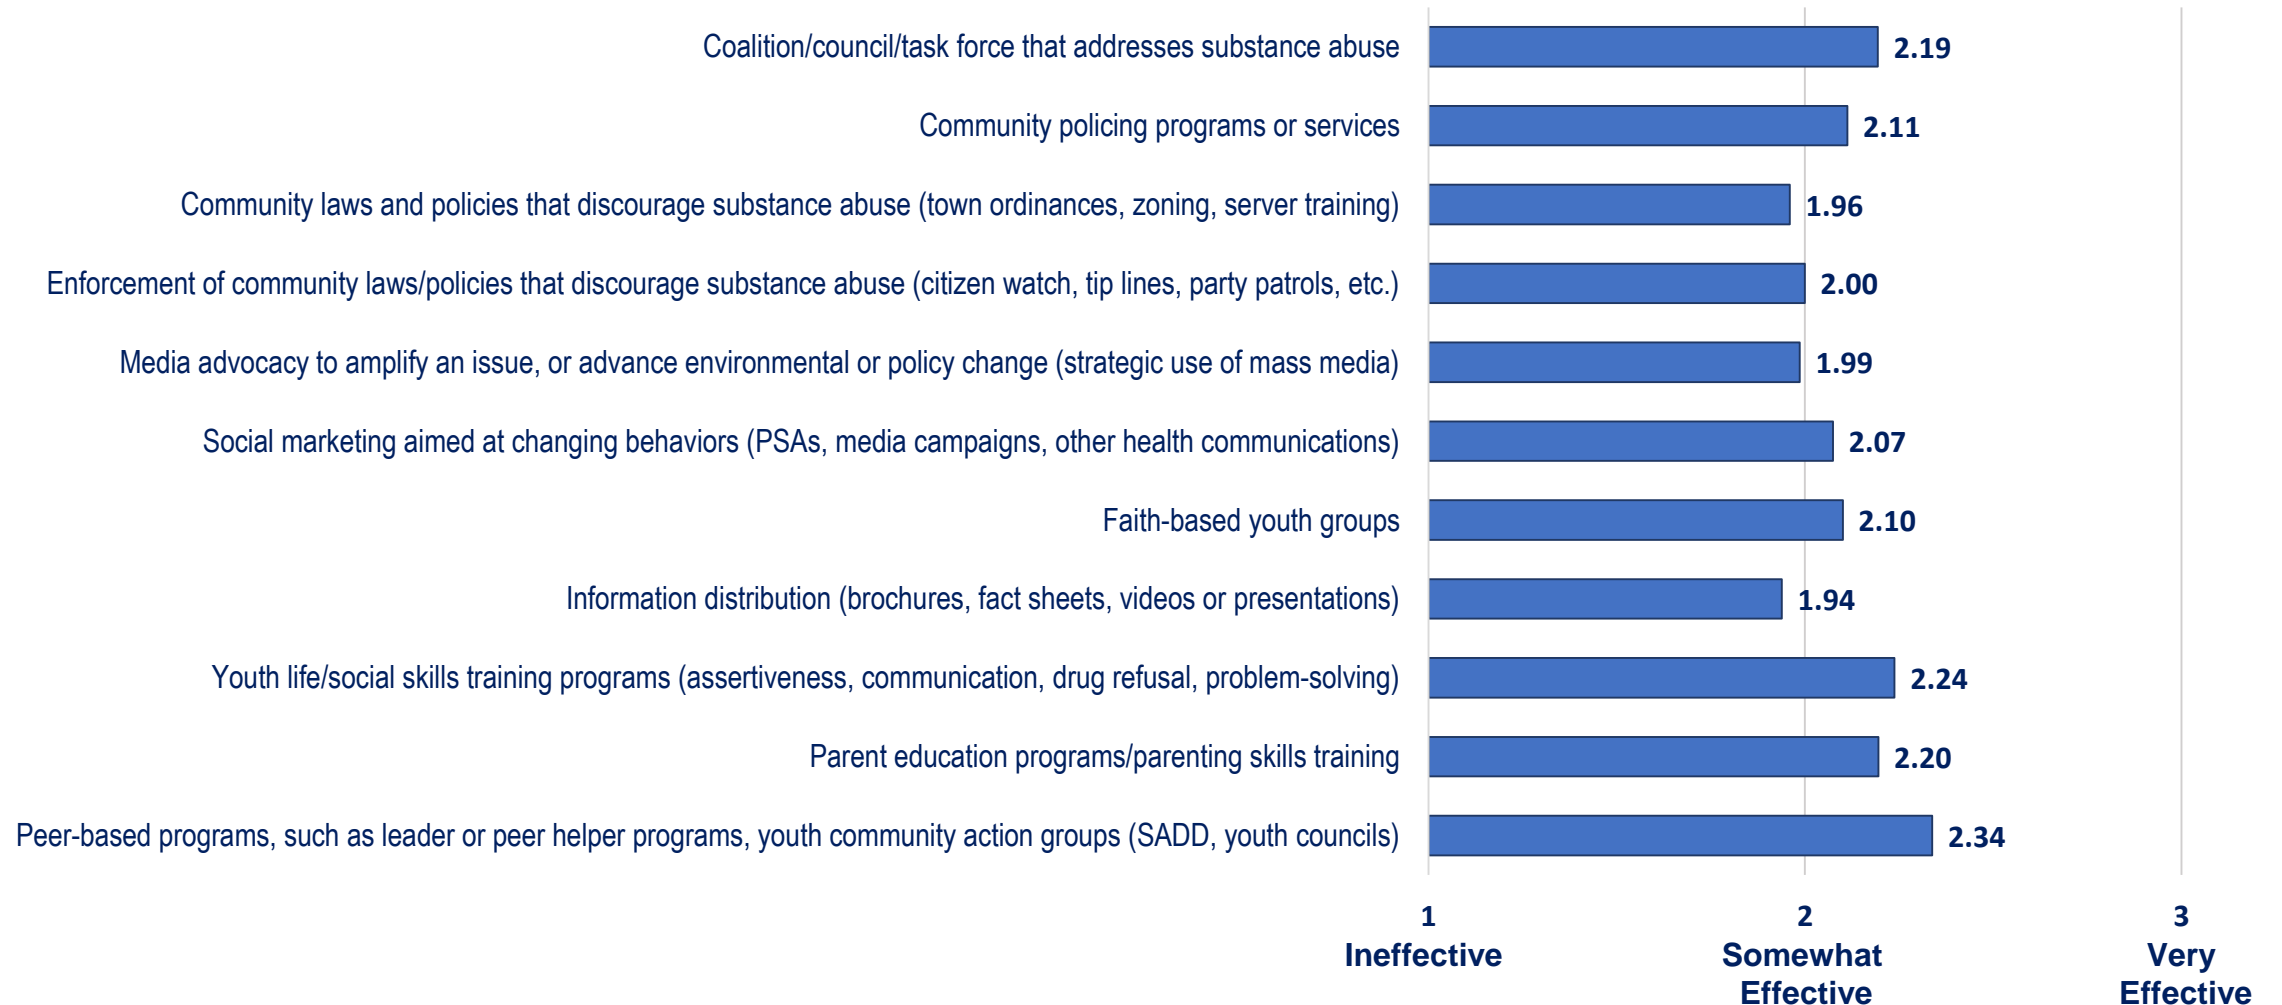

Community Attitudes Toward Substance Abuse Prevention [Q10]: Connecticut CRS, 2018

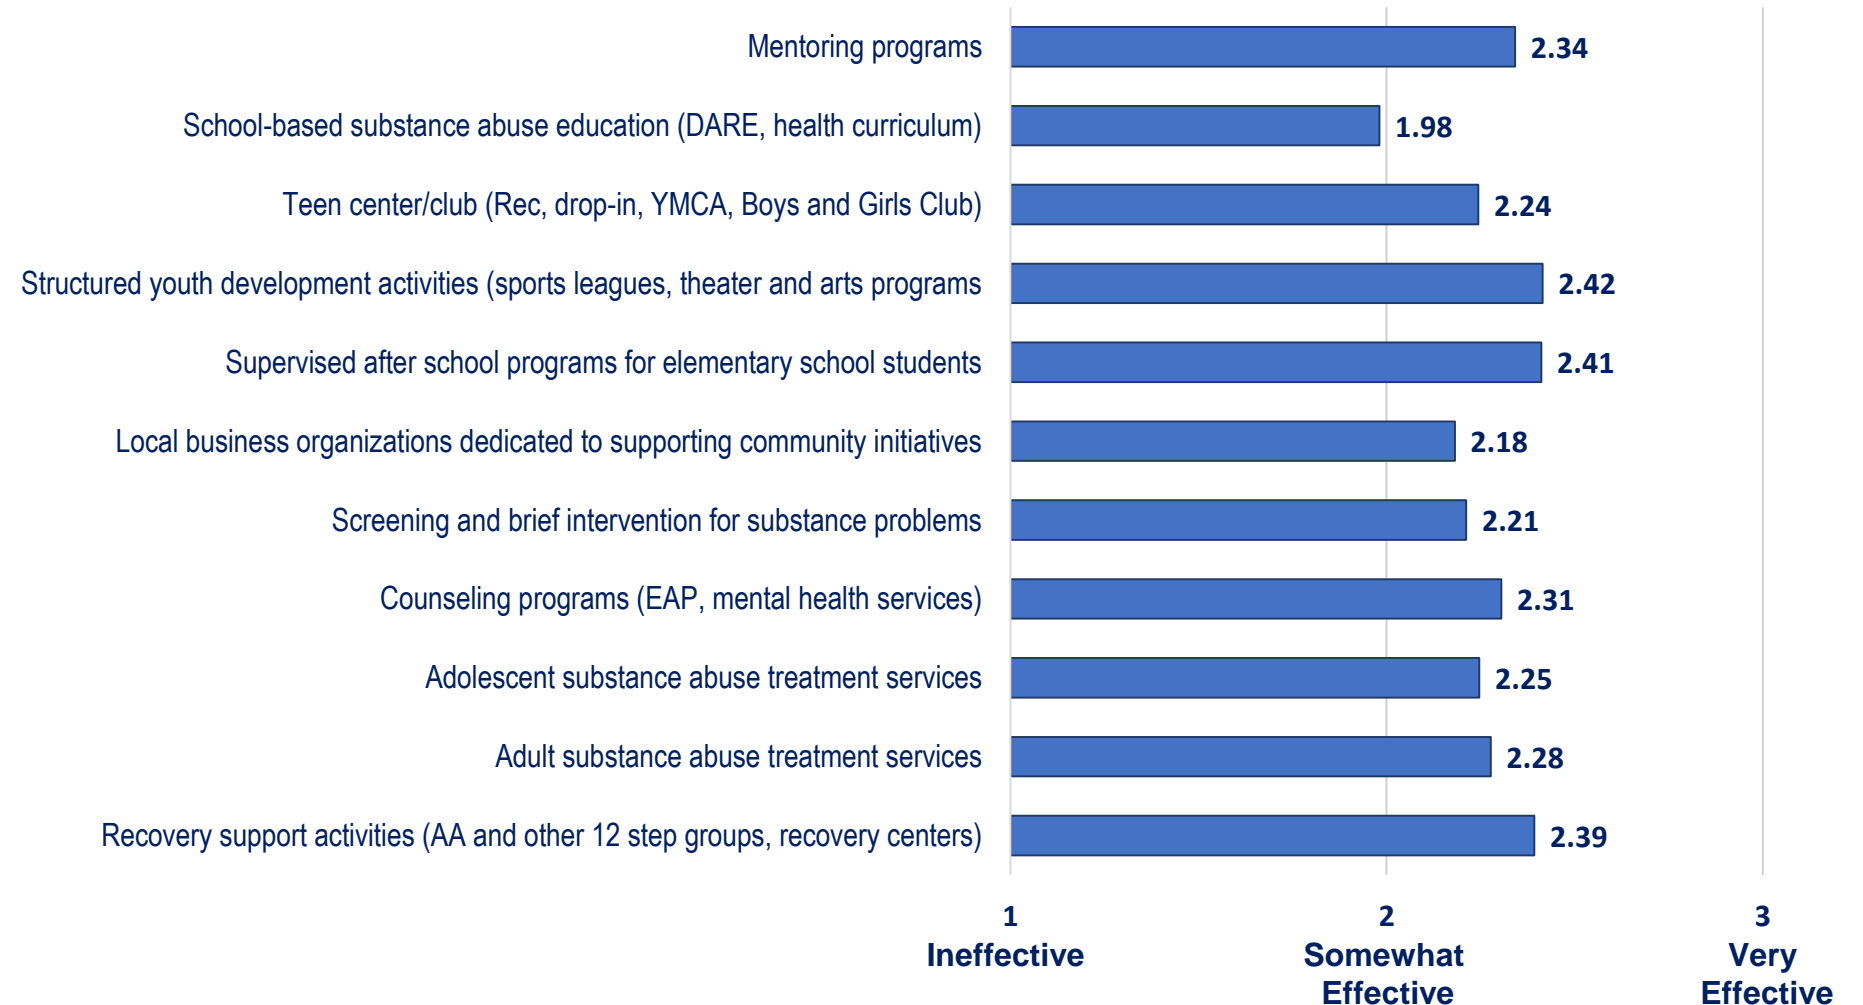

Key Informant believes that most community residents
